Rexora™

Metarhizium anisopliae

Rexora offers a natural and environmentally sustainable approach to crop protection. Formulated with high-quality Metarhizium anisopliae spores, it leverages the power of nature's own biological control agent. The product demonstrates excellent adaptability across diverse crop systems and environmental conditions, providing effective pest control with minimal ecological footprint. Its long shelf life and stable formulation make it a reliable choice for sustainable agriculture programs seeking to balance productivity with environmental stewardship.

Product Overview

Active Ingredients

Metarhizium anisopliae - 1 x 10^9 CFU/g

Formulation Type

Wettable Powder (WP)

Application Guidelines

Dosage (per acre)	Dilution
1 - 2 Kg	2 - 3 g/L

Pests Controlled

Diamondback moth, cotton bollworm, root grubs, termites, leaf hoppers, shoot borers, white grubs, cutworms

Key Benefits

- Broad-spectrum biological control agent.
- Effective against both soil and foliar insect pests.
- Eco-friendly, residue-free, and compatible with organic farming.
- Improves soil microflora and enhances root health.
- Safe for beneficial insects and pollinators.

Use Sites

Nurseries | Gardening | Greenhouse | Turf | Agriculture

Horticulture | Forestry | Hydroponics | Chemigation | Soil Drench

Shelf Life & Storage

12 months from manufacturing date. Store in a cool, dry, dark place; protect from moisture and direct sunlight

Ideal Spray Interval

10 to 15 Days depending on the pest incidence.

Re-Entry & Pre-Harvest Intervals

REI: 4 Hours | PHI: 0 days (Harvest can be carried out immediately after application).

Safety & Handling

NON TOXIC

Safe for humans, & beneficial organisms.

Wear protective gloves & mask.

Avoid contact with eyes & skin.

Wash equipment & hands after use.
