

EnvictaTM

*Combination of Humic,
Fulvic and Amino acid*

EnvictaTM is an advanced biostimulant formulation combining humic acids, fulvic acids, and plant-based amino acids to enhance crop health and productivity. This unique synergy strengthens plants' natural defense mechanisms, improving resistance to pests, diseases, and environmental stresses. By promoting soil vitality and plant vigor, it offers a sustainable solution for modern agriculture.

Product Overview

Active Ingredients

Humic Acid
Fulvic Acid
Amino Acid

Formulation Type

Soluble Liquid (SL)

Application Guidelines

Dosage (per acre)	Dilution
500 - 1000 ml	2 - 3 ml / litre

Product Highlights

- Complete soil to plant support system.
- Enhances plant metabolism and microbial activity.
- Acts as a natural Chelator for nutrients.
- Excellent carrier for micro nutrients.
- Buffer the pH values of the soil and release carbon dioxide.

Key Benefits

- Promotes flowering, fruit set, and yield quality.
- Enhances nutrient uptake and efficiency (NPK + micronutrients).
- Increases resistance to stress and diseases.
- Improves soil fertility and long term productivity.
- Reduces abiotic stress.

Use Sites

Nurseries

Gardening

Greenhouse

Turf

Agriculture

Horticulture

Forestry

Hydroponics

Chemigation

Soil Drench

Shelf Life & Storage

24 months from manufacturing date. Store in a cool, dry, well-ventilated.

Ideal Spray Interval

10 to 15 Days

Re-Entry & Pre-Harvest Intervals

REI: 0-4 Hours | PHI: 0 days (Harvest can be carried out immediately after application).

Safety & Handling

Safe for humans, & beneficial organisms.

Wear protective gloves & mask.

Avoid contact with eyes & skin.

Wash equipment & hands after use.
