

RhiotaTM

Bacillus subtilis

RhiotaTM is a biological fungicide based on *Bacillus subtilis* designed for seed treatment, soil application, and foliar spray. It helps suppress major fungal diseases such as root rot, damping-off, wilt, and foliar infections. The beneficial bacteria rapidly colonize the root zone and plant surfaces, producing natural antimicrobial compounds that inhibit pathogens. Subtilix also enhances plant defense, promotes root development, and improves overall crop health and productivity.

Product Overview

Active Ingredients

Bacillus subtilis - 1×10^9 CFU/g

Formulation Type

Wettable Powder (WP)

Application Guidelines

Dosage (per acre)

1 - 2 Kg

Dilution

5 g/L

Target Pathogens

Bacillus subtilis targets a wide range of fungal pathogens including *Fusarium*, *Rhizoctonia*, *Pythium*, *Phytophthora*, *Alternaria*, and *Botrytis*, effectively reducing soil-borne and foliar crop diseases.

Key Benefits

- Controls a broad spectrum of plant fungal pathogens
- Suppresses soil-borne and foliar diseases effectively
- Produces antimicrobial compounds inhibiting pathogen growth
- Promotes strong root development and nutrient uptake
- Enhances plant immunity and stress tolerance
- Improves overall crop health and productivity

Use Sites

Nurseries

Gardening

Greenhouse

Turf

Agriculture

Horticulture

Forestry

Hydroponics

Chemigation

Soil Drench

Shelf Life & Storage

12 months from manufacturing date. Store in a cool, dry, well-ventilated.

Ideal Spray Interval

10 – 15 days during normal pest pressure

Re-Entry & Pre-Harvest Intervals

REI: 4 Hours | PHI: 0 days No restrictions; safe for application up to harvest, suitable for organic farming.

Safety & Handling

Safe for humans, & beneficial organisms.

Wear protective gloves & mask.

Avoid contact with eyes & skin.

Wash equipment & hands after use.
